

INCUBATION TRAINING ROADMAP

This roadmap is curated to serve as the guidelines in preparing and carrying out a successful training session. This training is scheduled to hold in two phases of (12 weeks each).

KEYWORDS

Tracks: This is the learning paths we will be taking Students through (Web, UI/UX, IOT/ML, Mobile application development)

Mentors: These are trained Personnels who understands the syllabus of the course contents. They monitor the overall training session

Sub Mentors: These are set of people/Mentor who will be in charge of Study groups

Students: These are members of the training who are to receive the training and build their skills.

Study Group: This is a small group of 5-10 Students who form a peer practice and study team

Group Leads: These are heads of each Study Group

The training commencement will be determined by the school activities. Examinations are fast approaching which will keep us on hold. We might kickstart after the examination, which is November, 2020. Making phase 1 of the training span to next year (January)
